

## Technical Consultant Sweden

Location: Sweden | Fulltime | International travel up to 30% | Start a.s.a.p.

Topigs Norsvin is a global leader in pig breeding and artificial insemination. In 2014 the cooperation Topigs in the Netherlands merged with the Norwegian cooperation Norsvin. They brought their international and R&D activities together, with the result of creating a strong global organization with a world leading position in the swine genetics industry. The head office is in Vught, the Netherlands, but with an important hub in Hamar, Norway.

Topigs Norsvin works with local subsidiaries, joint ventures and distributors. Combining genetics, service and knowledge to meet client needs in the marketplace. Topigs Norsvin has its own nucleus breeding farms to supply the domestic and international markets with market-specific, high-quality porcine genetics. The company's research, innovation and genetic improvement are the cornerstones of the organization, having research and development programs with leading universities and research institutes around the world.
